PROJECTS

Restaurant Management — *Using Python and Mysql*

This project handles restaurant's orders, billing and customer details. Project is made with the frontend using Python and handles the backend with Mysql.

Amazon Website Clone — *Using HTML and CSS*

This is a basic website made using HTML and CSS which gave me exposure to development and designing of commercial websites.

Portfolio Website — *Using HTML, CSS and JS*

This portfolio website contains HTML and CSS designing along with some little use of javascript in the project.
